

## Sani Guzzler

Breakthrough odour control product for sanitary hygiene

Sanitary waste specific microbes ensure weeks long odour control

Potent natural citronella fragrance masking system

Proprietary microbes and natural oils prevent fly larvae

Highly economical for excellent cost savings

Indestructible guaranteed portion control dispensing system

### Next-Gen Sanitary Hygiene:

Sani Guzzler is a breakthrough in long term odour control in the sanitary hygiene servicing field.

A proprietary Ecozyme developed with synergistically operating microbe system developed for sanitary waste ensures unmatched odour and fly larvae control for weeks long protection.

Coupled with the known benefits and powerful fragrance of natural citronella oil on a controlled slow release system, excellent sanitary hygiene is guaranteed.

Even if a service is skipped, the billions of beneficial microbes in Sani Guzzler keep multiplying as the bin is used, meaning ongoing natural odour and fly larvae control.

### Features & Benefits:

- Superior long term odour control
- Powerful natural citronella oil fragrance
- Oldest waste is targeted first
- Excellent fly and larvae control
- Keeps working if a service is skipped
- Excellent cost savings & portion control
- Controls and limits pathogen growth
- Microbes digest cotton cellulose fibres
- Benefits landfill sites after disposal
- Indestructible dispensing system
- Specially selected microbes and citronella oil known for unmatched fly and larvae control

Natural wick system for controlled long-term fragrance release

### Directions for Use:

Remove the used sanitary bin bag and replace with a new bag. Squeeze the bottle and fill up to the 25ml mark. Pour the Sani Guzzler liquid evenly down all sides of the bag. Liquid will pool naturally at the bottom.

Dispense from 10L buddy jug with tap in the service vehicle into the portion control bottles. 10L = 400 bin services.

### Shelf Life & Storage:

Stable for 12 months at ambient temperature, out of direct sunlight. Available in 5L, 25L & 1000L flow bins. Super concentrate available for simple self-manufacturing while saving greatly on shipping costs.

- Portion control bottles and buddy jugs sold separately.
